

The Device Management Library defines the data structures that are used in Cumulocity IoT for device management activities like for Software Management activities like for example software management and configuration management.

In this eLearning we will describe Device Management functionalities and how they work behind the scenes. This includes data sent from Cumulocity IoT to devices and data Cumulocity IoT expects from devices enable these functionalities

Duration: 80 min

Achievements: Attendance Badge

Learner Profile

- Developer
- Integration Specialist

Required Knowledge

Cumulocity IoT Device Management & Connectivity

Next Steps

Expert modules in the categories:

- Device Integration

Learning Objectives

- Introduction to Cloud Fieldbus
- Concepts
- Connecting a Modbus Device
 - Demo
- Working with Cloud Fieldbus

Activities

- Learning Videos & Demos
